Dechlorization Skin Beautifying Fragrance Shower H ead

VC FRAGRANCE SKIN BEAUTIFYING SHOWER HEAD

BATHING SKIN BEAUTIFYING

SHOWER HEAD

SAFE NO WORRY

ENJOY ALL BATHING TIME

Use solid vitamin c, high efficiency to remove the chlorine in water

Water scale inhibiting

12 type fra-grance at your choise

Shower head Pressure boosting

Integrated one stop water button with Pressure adjustable.

— Micropore air bubble technology

MICROPORE AIR BUBBLE TECHNOLOGY PATENT

Patent

PRESSURE BOOSTING AND WATER SAVING

Normal shower head

50-90pcs dia
0.9mm small holes

Jubei shower head

228pcs dia
0.3mm small holes, forming micro air bubble spray

Jubei second generation shower head

VS

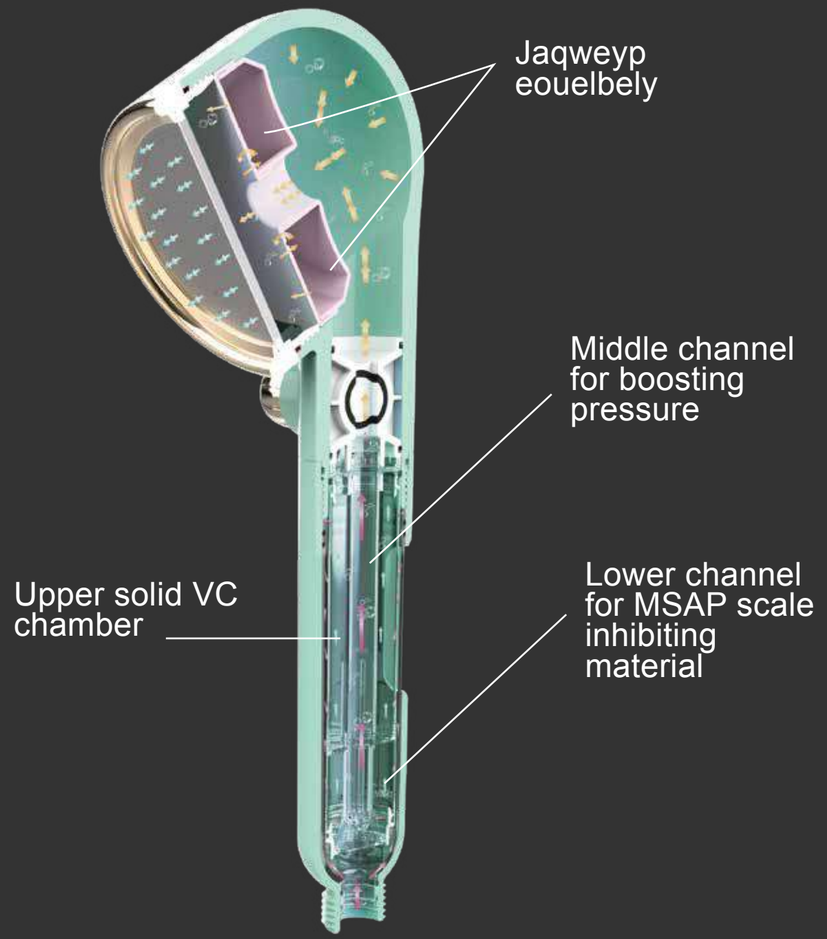

Normal shower head

0.3mm/dia

— Third TecholoowConcentrated boosting pressure technology

Patent

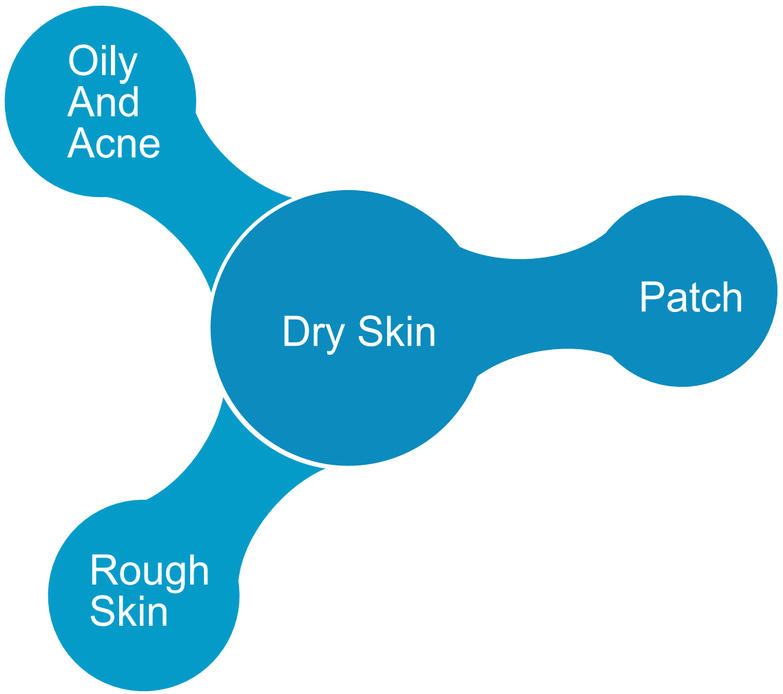

- Patent compound filter cartridge design
- Three channels concentrated runner structure
- The button part of Filtering cartridge made of SS316 stainless steel mesh for
- First stage filtering
- The lower channel contain MSAP scale inhibiting material to prevent
- The scale forming
- Upper channel contain solid Vitamin C, Effectively remove the chlorine, good for skin
- Middle channel is for concentrated boosting filtering water to shower head for jet with pressure

— VC moisturizing and skin beautifying technology

SOLID VITAMIN C +
VC MOISTURING AND SKIN BEAUTIFYING ESSENCE

Made from nature plant, high efficiency chlorine removing, let the nature water infiltrating whole of your body and make the skin no more dry and prevent multiple skin problems.

— Third TecholoowConcentrated boosting pressure technology

Natural Plant Product

Skin beautifying essence composition and effect

. Moisturizing skin beautifying technology
. Skin beautifying essence

Vitamin C

Remove chlorine

Plant Extracts

(rose,Barbados,cherry, seads of grape)

Brightening, Moisturizing, Antioxidizing

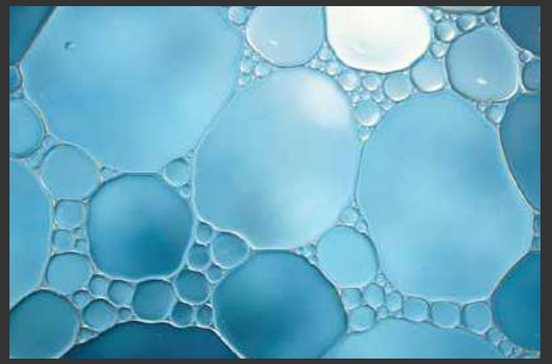

Fucoidan

Protect hair, moisturizing
Anti-bacteria

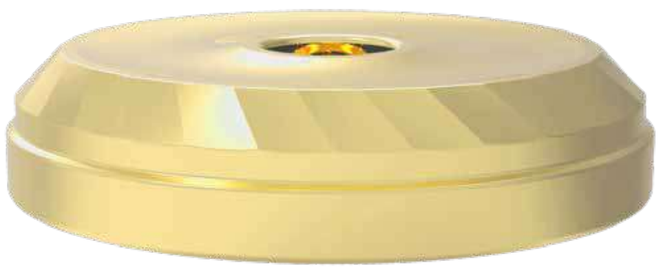

Hyaluronic Acid

Natural moisturizing factor

— Pure natural plant fragrance essence

VC moisturizing and beautifying essence

1. Fucoidan (English Name: fucoidan): moisturizing, hair care, antibacterial, anti-inflammatory and other functions; It canpromote the metabolism of hair and scalp, improve the flexibility and luster of hair,It also has good antibacterial and anti-inflammatory function;
2. Hyaluronic acid (hyaluronic acid): it is a natural moisturizing factor, which can make the skin soft, smooth, wrinkle free,increase elasticity, resist aging, and promote wound healingeffect.
3. Rose pure dew: easy to be absorbed by skin, mild and non irritating, keeping skin white and tender;
4. Natural aloe gel: it can astringe, soften, moisturize, diminish inflammation, bleach and improve scars. It also contains active ingredients to effectively remove residual chlorine in waterFunction;
5. Grape seed essence: it is the substance with the strongest antioxidant and free radical scavenging ability found in nature at present. Its antioxidant activity is 50 times that of vitamin E and 20 times that of vitamin CTimes.) Rich in vitamins and antioxidants, it can nourish skin, beautify and beautify skin, protect collagen in skin, improve skin elasticity and prevent skin from being dull,Make the skin smooth, tender and elastic;
6. Acerola cherry essence: 1) VC contained in it is a good antioxidant, which can remove free radicals produced in humanactivities; 2) In addition to VC, it also contains a variety of campsIt is absorbed slowly in the human body, its concentration in serum can maintain a high level for a long time, and its effect on the human body is unmatched by VCfrom other sources; 3) Its unique anti- aging factor (SOD) - superoxide dismutase can effectively resist the invasion of foreign harmful substances and delay aging.

— MSAP scale inhibitor filter material

TECHNICAL CHARACTERISTICS OF MSAP SCALE INHIBITOR

BIOACTIVE MATERIALS

Safe, non-toxic and harmless

Food grade safe and worry-free Phosphorus-free, environmentally friendly.

STABILITY

No fear of high temperature and high PH

No effect on scale inhibition efficiency at high pH and high temperatures.

SUPER SCALE INHIBITION

Laboratory scale inhibition rate of 99%

The scale inhibition rate can reach more than 99% under the experimental condition of national standard hard water, and each gram can filter 2 tons of water.

MULTIPLE FORMS

Unique flake

The unique compression form can be widely used in various internal and external devices.

EFFICIENT SLOW RELEASE TECH

High-speed release, slow-release and long-lasting

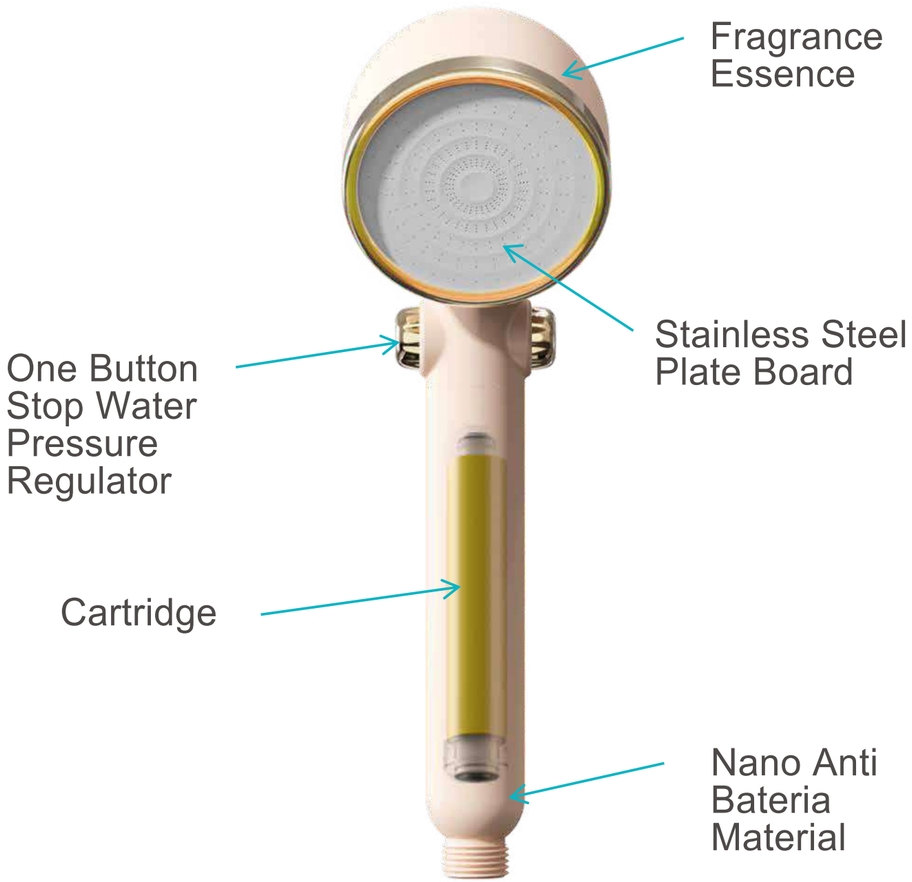

0.23PPM in 0.3 seconds with water lasting for 48 hours slow release to saturation concentration.

NANO ANTIBACTERIAL MATERIAL CAN EFFECTIVELY INHIBIT BACTERIA

Nano antibacterial material is added to the shower head to inhibit the reproduction and growth of bacteria in the shower head and water.

Multiple Conbination

— Dechlorization skin beautifying fragrance shower h ead parameter

Filter Cartridge	IVF solid Vitamin C	remove chlorine
	MSAP	scale inhibiting
Servise life	8T municipal water	
Sugguested Working temperature	4-48 ℃	
Rated purified water flow	6.2L/min	
Sugguested working pressure	0.1Mpa-0.3Mpa	
Material	Stainless steel	
shower holes: dia. And qty	0.3mm, 228 holes	
hose fitting size	1/2" male thread
